1 Introduction

At Palm Bay Primary School, we encourage and support the positive use of technology for all members of the school community to develop curriculum and learning opportunities, as well as for personal enjoyment and achievement.

We carefully manage the use of technology and the internet to ensure that all members of the community, including their data, are kept safe. The following Acceptable Use Policies (AUPs) are an integral and essential part of this process.

This collection of policies has been written using the KCC AUP templates.

1.1 AUP brief statement

At Palm Bay Primary School, we want to ensure that all members of our community are safe and responsible users of technology. We will support our learners to…

- Become empowered and responsible digital creators and users
- Use our resources and technology safely, carefully and responsibly
- Be kind online and help us to create a community that is respectful and caring, on and offline
- Be safe and sensible online and always know that you can talk to a trusted adult if you need help

1.2 What is an AUP?

An AUP:

- Is a clear and concise document which gives all users an outline of acceptable and unacceptable behaviours should focus on behaviours rather than the technology itself
- Should be developed with end-user, or example children and staff, input to engage and empower all members of the school community
- Is appropriate to the settings needs and requirements; settings will need different versions for different audiences within the community
- Is embedded as part of staff induction and new pupil intake
- Is developed by the Designated Safeguarding Lead (DSL) as part of leadership and management and is approved by the Governing Body or trust/committee as appropriate.
- Encourages all members of the community to develop responsibility for their behaviour and practice online, as appropriate
- Clearly states what monitoring takes place on ICT systems on site or via devices provided by the setting □ Outlines the sanctions for unacceptable use
- Should be clear about what someone should do if they become aware of a potential breach of the AUP or are concern or unsure

4. I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

6 Staff Acceptable Use Policy

As a professional organisation with responsibility for safeguarding, it is important that staff take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. All members of staff have a responsibility to use the school's computer system in a professional, lawful, and ethical manner. To ensure that members of staff are fully aware of their professional responsibilities when using technology, they are asked to read and sign this Acceptable Use Policy.

This is not an exhaustive list; all members of staff are reminded that IT use should be consistent with the school ethos, school policies, national/local guidance and expectations, and the Law.

1. I understand that Information Systems and IT include networks, data and data storage, online and offline communication technologies and access devices. Examples include laptops, mobile phones, tablets, digital cameras, email and social media sites.

2. School owned information systems must be used appropriately. I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.

3. I understand that any hardware and software provided by my workplace for staff use can only be used by members of staff and only for educational use. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or locking my login as appropriate. I will protect the devices in my care from unapproved access or theft.

4. I will respect system security and will not disclose any password or security information. I will use a 'strong' password to access school systems. A strong password has numbers, letters and symbols, with 8 or more characters, does not contain a dictionary word and is only used on one system.

5. I will not attempt to install any purchased or downloaded software, including browser toolbars, or hardware without permission from the system manager.

6. I will ensure that any personal data of pupils, staff or parents/carers is kept in accordance with the Data Protection legislation (including GDPR).
   - This means that all personal data will be obtained and processed fairly and lawfully, only kept for specific purposes, held no longer than necessary and will be kept private and secure with appropriate security measures in place, whether used in the workplace, hosted online or accessed remotely.
   - Any data being removed from the school site (such as via email or on memory sticks or CDs) will be suitably protected. This may include data being encrypted by a method approved by the school.
   - Any images or videos of pupils will only be used as stated in the school image use policy and will always reflect parental consent.
7. I will not keep documents which contain school-related sensitive or personal information, including images, files, videos and emails, on any personal devices, such as laptops, digital cameras, and mobile phones. Where possible, I will use the School Learning Platform to upload any work documents and files in a password protected environment or via VPN.

8. I will not store any personal information on the school computer system including any school laptop or similar device issued to members of staff that is unrelated to school activities, such as personal photographs, files or financial information.

9. I will respect copyright and intellectual property rights.

10. I have read and understood the school’s online safety policy which covers the requirements for use of mobile phones and personal devices and safe ICT use, including using appropriate devices, safe use of social media websites and the supervision of learners within the classroom and other working spaces.

11. I will immediately report any illegal, inappropriate or harmful material or incidents I become aware of, to the Designated Safeguarding Lead, Kate Wright.

12. I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware, or if I have lost any school related documents or files, I will report this to the ICT Support Provider/Team/lead, Think Big Tech, as soon as possible.

13. My electronic communications with current or past pupils, parents/carers and other professionals will take place within clear and explicit professional boundaries and will be transparent and open to scrutiny.
   - All communication will take place via school approved communication channels, such as a school provided email address or telephone number, and not via my personal devices or communication channels, such as personal email, social networking or mobile phones.
   - Any pre-existing relationships or situations that may compromise this will be discussed with the Designated Safeguarding Lead, Kate Wright, and/or headteacher.

14. I will ensure that my online reputation and use of IT and information systems are compatible with my professional role, whether using school or personal systems. This includes the use of email, text, social media, social networking, gaming and any other devices or websites.
   - I will take appropriate steps to protect myself online as outlined in the Online Safety Policy and will ensure that my use of IT and the internet will not undermine my professional role, interfere with my work duties and will be in accordance with the School Behaviour Policy and the law.

15. I will not create, transmit, display, publish or forward any material online that is likely to harass, cause offence, inconvenience or needless anxiety to any other person, or anything which could bring my professional role, the school, or the County Council, into disrepute.

16. I will promote online safety with the pupils in my care and will help them to develop a responsible attitude to safety online, system use and to the content they access or create.
17. If I have any queries or questions regarding safe and professional practise online either in school or off site, I will raise them with the Designated Safeguarding Lead, Kate Wright and/or the headteacher.

18. I understand that my use of the school information systems, including any devices provided by the school, including the school internet and school email, may be monitored and recorded to ensure the safety of children and staff and to ensure policy compliance. This monitoring will be proportionate and will take place in accordance with data protection, privacy and human rights legislation.

19. I understand that the school may exercise its right to monitor the use of information systems, including internet access and the interception of emails, to monitor policy compliance. Where it believes unauthorised and/or inappropriate use, or unacceptable or inappropriate behaviour may be taking place, the school may invoke its disciplinary procedures. If the school suspects criminal offences have occurred, the matter will be brought to the attention of the relevant law enforcement organisation.

I have read, understood and agreed to comply with Palm Bay Primary School’s Staff Acceptable Use Policy

Dear Parent/Carer

All pupils at Palm Bay Primary School use computer facilities and internet access, as an essential part of learning as required by the National Curriculum. Your child will have the opportunity to access a wide range of information and communication technology (ICT) resources. This includes access to:

- Computers, laptops and other digital devices
- Internet which may include search engines and educational websites
- Email
- Digital cameras, web cams and video cameras

Palm Bay Primary School recognises the essential and important contribution that technology plays in promoting children’s learning and development, believe it and offers a fantastic range of positive activities and experiences. We do recognise however that this can bring risks. We take your child’s online safety seriously and, as such, will take all reasonable precautions, including monitoring and filtering systems, to ensure that pupils are safe when they use our internet and systems. This includes:

We recognise however that no technical system can replace online safety education and believe that children themselves have an important role to play in developing responsible behaviour. In order to support the school in developing your child’s knowledge and understanding about online safety, we request that you read the attached Acceptable Use Policy with your child, discuss the content with them and return the attached slip.

For EYFS/KS1
We understand that your child is too young to give informed consent on his/her own; however, we feel it is good practice to involve them as much as possible in the decision-making process, and believe a shared commitment is the most successful way to achieve this.

Hopefully, you will also find this Acceptable Use Policy provides you with an opportunity for conversations between you and your child about safe and appropriate use of the technology, both at school and at home.

We request that all parents support our approach to online safety by role modelling safe and positive online behaviour and by discussing online safety whenever children access technology at home. Parents can visit the school website for more information about our approach to online safety. Full details of the school’s online safety policy are available on the school website or on request. At Palm Bay Primary School, we recognise that staff can be vulnerable to online risks. Social media can blur the definitions of personal and working lives; it is important that all members of staff at Palm Bay Primary School take precautions in order to protect themselves both professionally and personally online. With this in mind, we request that all members of staff:

- Are conscious of their own professional reputation and that of the school when online.
  - All members of staff are strongly advised in their own interests, to take steps to ensure that their personal information and content is not accessible to anybody who does not or should not have permission to access it.
  - Content shared online cannot be guaranteed to be “private” and could potentially be seen by unintended audiences. This can have consequences including civil, legal and disciplinary action being taken.

- Are aware that as professionals, we must ensure that the content we post online does not bring the school or our professional role into disrepute, and does not undermine professional confidence in our abilities.
  - The teaching standards state that as professionals we should be achieving the highest possible standards in our conduct, act with honesty and integrity and forge positive professional relationships.

- All Staff be careful when publishing any information, personal contact details, video or images online.
  - It is very important to be aware that sometimes content shared online, even in jest, can be misread, misinterpreted or taken out of context, which can lead to complaints or allegations being made. Don’t be afraid to be yourself online, but do so respectfully.
  - Ensure that the privacy settings of the social media sites that you use are set appropriately and access to restricted.
  - Ask yourself if you would feel comfortable about a current or prospective employer, colleague, child in your care or their parent/carer, viewing or sharing your content. If the answer is no, then consider if it should be posted online at all.

- Do not to accept pupils (past or present) or their parents/carers as “friends” on a personal account.
  - You may be giving them access to your personal information and allowing them to contact you inappropriately through unregulated channels. They may also be giving you access to their personal information and activities which could cause safeguarding concerns.
  - If you have a pre-existing relationship with a child or parent/carer that may compromise this or have any queries or concerns, please speak to the Designated Safeguarding Lead Mrs K Wright, or her Deputy, Mrs V Solly

- Always use a work provided email address or phone number to contact children and parents – this is essential in order to protect yourself as well as the wider community.

- If you are concerned about a child’s wellbeing or online behaviour, then please speak to the Designated Safeguarding Lead or her Deputy. If you are targeted online by a member of the community or are concerned about a colleague, then please speak to the headteacher and/or chair of governors.
If you are unhappy with the response you receive, or do not feel able to speak to the Designated Safeguarding Lead, headteacher or chair of governors then we request you follow our Whistleblowing procedure.

Documents called “Cyberbullying: Supporting School Staff”, “Cyberbullying: advice for headteachers and school staff” and “Safer professional practise with technology” are available from the DSL to help you consider how to protect yourself online.

Please photocopy them if you want or download the documents directly from:
- www.childnet.com,
- www.e-safety.org.uk
- www.saferinternet.org.uk

Additional advice and guidance for professionals is available locally through the Education Safeguarding Team or nationally through Professional Unions and/or the Professional Online Safety helpline www.saferinternet.org.uk/about/helpline

I would like to remind all staff of our Acceptable Use Policy and the importance of maintaining professional boundaries online. Failure to follow this guidance and the school behaviour policy/code of conduct could lead to disciplinary action; it is crucial that all staff understand how to protect themselves online.

Please speak to your line manager, the Designated Safeguarding Lead or myself if you have any queries or concerns regarding this.

Yours sincerely,

Miss L Williams

13 Wi-Fi Acceptable Use Policy

For those using school Wi-Fi

As a professional organisation with responsibility for children’s safeguarding it is important that all members of the school community are fully aware of the school’s boundaries and requirements when using the school Wi-Fi systems, and take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. This is not an exhaustive list and all members of the school community are reminded that ICT use should be consistent with the school ethos, other appropriate policies and the Law.

1. The school provides Wi-Fi for the school community and allows access for education use only

2. I am aware that the school will not be liable for any damages or claims of any kind arising from the use of the wireless service. The School takes no responsibility for the security, safety, theft, insurance and ownership of any device used within the School premises that is not the property of the School.

3. The use of ICT devices falls under Palm Bay Primary School’s Acceptable Use Policy, online safety policy, data protection policy and Safeguarding Policy and behaviour policy which all students/staff/visitors and volunteers must agree to, and comply with.

4. The school reserves the right to limit the bandwidth of the wireless service, as necessary, to ensure network reliability and fair sharing of network resources for all users.

5. School owned information systems, including Wi-Fi, must be used lawfully and I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.

6. I will take all practical steps necessary to make sure that any equipment connected to the school’s service is adequately secure, such as up-to-date anti-virus software, systems updates.

7. The school’s wireless service is not secure, and the school cannot guarantee the safety of traffic across it. Use of the school’s wireless service is done at my own risk. By using this service, I acknowledge that security errors and hacking are an inherent risk associated with any wireless network. For that reason, I expressly agree that I knowingly assume such risk, and further agree to hold the school harmless from any claim or loss arising out of, or related to, any such instance of hacking or other unauthorized use or access into my computer or device.

8. The school accepts no responsibility for any software downloaded and/or installed, e-mail opened, or sites accessed via the school’s wireless service’s connection to the internet. Any damage done to equipment for any reason including, but not limited to, viruses, identity theft, spyware, plug-ins or other internet-borne programs is my sole responsibility; and I indemnify and hold harmless the school from any such damage.

9. The school accepts no responsibility regarding the ability of equipment, owned by me, to connect to the school’s wireless service.
10. I will respect system security and I will not disclose any password or security information that is given to me. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or locking my login as appropriate.

11. I will not attempt to bypass any of the school's security and filtering systems or download any unauthorised software or applications.

12. My use of the school Wi-Fi will be safe and responsible and will always be in accordance with the school AUP and the Law including copyright and intellectual property rights.
